# BUNDARA DOWNS SALE DETAILS

400 Lots comprising : 26 Stud Rams, 20 Special Selected Rams and 354 Flock Rams  
Sale to be held on property 'Bundara Downs' (see map on back )

**Please Note : Light B.B.Q luncheon supplied, catered for by Bundara Downs.**

Purchased sheep may be held on property awaiting delivery following the Sale at the 'Purchasers Risk'

For further information, contact selling agents :

**Elders Bordertown 0887 521011**

Brenton Henriks 0409 520552 Laryn Gogel 0436020245 Tony Wetherall 0427390001

4% rebate to agents introduced & accompany 24 hrs. prior in writing to settling agent.

1% rebate to agents introduced by buyer on sale day settling on their behalf.

Agents are required to be in attendance to receive the rebate detailed above.

Inspection of stock from 9.30am on sale day or prior arrangement with :

**Steve and Ros Ph. / fax 08 87582032 or 0418 853980 & 0448 002758**

**Greg and Selena Ph. 08 87582070 or 04002 62492**

# FLOCK HEALTH

- . Ovine Johnes Disease MN3 Status ( No. S8 )
- . Ovine Brucellosis Accredited ( No. 997 )
- . Drenched with Cydectin SE & Keymin August.
- . All outside WS sires DNA tested Hypotrichosis free ( HrF ).
- . Glanvac 6:1 and B12 late July
- . Footrot free
- . White Suffolk's Sire & Dam Hypotrichosis Free (HrF).
- . All rams treated with Exstinosad Eliminator Late July.

HF	Hillcroft Farm							
IL	Illoura							

## SEMEN RETENTION

Bundara Downs advises their intention to maintain a semen interest in all rams offered. This means Bundara Downs reserves the right to collect semen from any ram offered, for use within own flock only ( unless otherwise stated ).

This collection of semen is to be done at the convenience of the purchaser and at the cost of Bundara Downs.

# FLOCK PERFORMANCE FIGURES

Performance figures in the catalogue are provided by LAMBPLAN from information collected on our flock by Rachel Chirgwin of RAC Farming ( Ph. 0428 600 265 )

The figures shown are estimated breeding values ( EBV's ) for growth, fat depth and eye muscle depth at post weaning ( 9 months ). They are compared with all White Suffolk sheep in the LAMBPLAN data base. The index value shown - Carcass Plus - is a combination of the above EBV's describing the value of each ram in a breeding programme.

## HYPOTRICHOSIS ( HrF )

Bundara Downs takes its responsibilities as a producer of seed stock genetics for the prime lamb industry seriously. Not only do we need to provide the industry with genetics that improve profit driving traits such as growth, efficiency, yield, muscling and fertility, we have a responsibility to ensure genetic conditions that could have a negative effect on productivity are identified, managed and eliminated. When Hypotrichosis (HrF) was identified as an issue in White Suffolk's (and other breeds), Bundara Downs took the bold (and expensive) step of DNA testing our White Suffolk stud sheep resulting in a DNA tested HrF free flock. All progeny are from DNA tested HrF free sires and dams meaning there are no HrF carriers in our registered flock. Because HrF is recognised as a simple autosomal recessive trait, meaning that both parents must carry the gene for it to be expressed in the progeny, using DNA tested HrF free Bundara Downs rams or ewes and their progeny means the problem will not appear in their progeny in your flock, even if HrF is present in your flock.

# WHITE SUFFOLK STUD HISTORY

The Bundara Downs White Suffolk stud was founded in 1993 with the purchase of elite genetics from highly successful studs within Australia. From this solid foundation, we are producing high quality soundly structured rams that are making a positive impact on the prime lamb industry. To do this we evaluate our stock utilising visual assessments as well as Lambplan, weighing of lambs at birth, weaning weights, measuring muscle and fat depth at 9 months. The Lambplan data is compared across studs within Australia to give us a comparison of our performance, not just within our stud.

Acquisition of leading sires has enhanced our excellent muscling and growth without restricting our genetic pool, allowing us to produce rams with varied traits to suit different production systems of our clients. In 2011 Bundara Downs joined the Super Whites group, to further increase genetic gain within the stud through access of high performing sires.

# POLL DORSET STUD HISTORY

The Bundara Downs Poll Dorset stud was founded in 2002 with the purchase of stock from renowned studs within Australia. The initial breeding program was based on artificial insemination allowing us to source elite genetics from influential studs. The Poll Dorset stud was established to allow us to diversify and cater for different production systems utilised by clients in different regions. We evaluate our stock utilising visual assessments as well as Lambplan, weighing of lambs at birth, weaning weights, measuring muscle and fat depth at 9 months. This diversity has enabled us to breed, to suit a wide range of markets within the prime lamb industry.

The Poll Dorset stud produces rams with exceptional muscle while maintaining sound structure and conformation. We target sires with clean points to reduce grass seed issues as well as a smooth modern shoulder to maintain the lambing ease. In 2006, Bundara Downs joined the Meat Elite group to identify, develop and utilise superior genetics.

## **SUFFOLK STUD HISTORY**

The Bundara Downs Suffolk stud was founded in 2015 with the purchase of stock from renowned studs within Australia. The initial breeding program was based on artificial insemination allowing us to source elite genetics from influential studs. The Suffolk stud was established to allow us to diversify and cater for different production systems utilised by clients in different regions.

We evaluate our stock utilising visual assessments as well as Lambplan, weighing of lambs at birth, weaning weights, measuring muscle and fat depth at 9 months. This diversity has enabled us to breed, to suit a wide range of markets within the prime lamb industry. Bundara Downs main aim is to breed a Suffolk with good growth, positive fat and muscle while maintaining the breed attributes.

## **ULTRAWHITE STUD HISTORY**

The Bundara Downs UltraWhite stud was founded in 2021 with the purchase of 10 ewes and a ram from Hillcroft Farm. The initial breeding program was Embryo Transfer on ewes and natural mating.

We have completed a number of Embryo Transfer and Artificial Insemination to fast track the stud.

In 2023 / 2024 mating we achieved approximately 460 lambs through the above technology.

Bundara Downs has always been at the forefront for both genetic gain and breeding technology.

We saw an opportunity to offer a shedding animal to suit market trends.

## MEMO OF SIRES

Bundara Downs 219740	Keeper ram 2022
Bundara Downs 218084	Keeper ram 2022
Bundara Downs 218190	Keeper ram 2022
Bundara Downs 218957	Keeper ram 2022
Bundara Downs 219610	Keeper ram 2022
Bundara Downs 205932	Son of AS170986, well balanced and good type ram.
Felix 211151	Top price ram Felix sale in partnership Baloola & Cheringa studs.
Felix 211239	Semen purchased as outcross sire.
Illoura 181442	Semen purchased as outcross sire.
Ella Matta 210270	YST semen used.
Gemini 210641	Gemini keeper ram kindly loaned by Gemini stud.
Ashmore 210300	Outcross ram with good type & structure.
Ashmore 200667	YST semen used.
Bundara Downs 194158	Outstanding ram with proud presence and excellent balance of figures.
Ashmore 190016	Top price ram purchased in partnership with Booloola & Cheringa studs.
Felix 201006	Top price ram at Felix sale, good balanced figures.
Felix 200925	Outcross ram with exceptional growth.

Bundara Downs 221838	Outstanding ram, used as a lamb and heavy in 23/24 mating.
Bundara Downs 218972	Well balanced ram by Derrynock 67.
Bundara Downs 205582	Exceptional ram used as a ram lamb. Outcross ram with balance of figures and good LE.
Felix 210133	Outcross ram with balanced figures and good muscle.
Bruan 190140	YST semen used.
Bruan 210026	YST semen used.
Bruan 210084	YST semen used.
Newbold 210016	YST semen used.
Ivadene 200010	Well muscled ram purchased for muscling.
Bundara Downs 219191	Outstanding proud ram, leading ram in SGA 2022.
Wendenlea 210003	Outcross ram with balanced figures.
Wendenlea 200095	Well balanced and muscled ram., purchased in partnership with Curlew Valley.
Hillcroft Farm 217150	Well balanced, muscled outcross ram. Semen used and donated kindly by Culgoa stud.
Hillcroft Farm 217180	A good growth & muscled ram purchased for \$20,500 in partnership with the Anden stud.
Hillcroft Farm 217867	Well balanced, muscled outcross ram with exceptional balanced figures. Complete shedder.
Hillcroft Farm 208545	Exceptional young ram purchased for \$15000 in partnership with the Anden stud.
Stokes Bay 210102	An outcross fully shedded ram with good balance & figures.
